

Herbicide Reimbursement Form for Landowners

Dear Landowner,

Thank you for participating in the Uintah County Weed Control Program. This program is available to those who own at least five (5) acres of ground in Uintah County. As part of your cost-share in our retail herbicide rebate program we ask that you **FIRST:** Purchase herbicide from any licensed herbicide vendor. **SECOND:** Fill out the following form as completely as possible and return it, along with a copy of your **current years herbicide sales receipts**, to the Uintah County Weed Department. **Reimbursement requests will be processed on or before the last Thursday of each month.** You will not be eligible for the herbicide reimbursement until you return this completed form. You may be eligible for up to \$300.00 reimbursement annually.

Return to: Uintah County Weed Department, 364 South 1500 East, Vernal, UT 84078

Approved Herbicides for Retail Herbicide Reimbursement Program

The Uintah County Weed Department encourages private citizens to control noxious weeds on their own properties or properties under their direct control. Uintah County Weed Department offers a reimbursement incentive to Uintah County residents who control noxious weeds as listed on the Utah State and Uintah County noxious weed lists. For more information about specific rules consult the Uintah County Noxious Weed Rules and Regulations, available on the web at www.uintahweeds.org or at the Weed Department, 364 South 1500 East, Vernal, 435-789-1073, Mon. - Thu. 7 a.m. to 5:30 p.m.

The following is a list of herbicides, suggested application rates and weeds controlled that have been approved by the Uintah County Weed Board (ALWAYS REFER TO THE LABEL BEFORE USING):

HERBICIDES*	RATE per ACRE	SUGGESTED NOXIOUS WEEDS CONTROLLED (may also control other weeds)
2,4-D Amine (multiple trade names)	2 - 4 Qts.	Canada thistle, musk thistle, Scotch thistle, field bindweed, leafy spurge, poison hemlock, Russian-olive
2,4-D LV6 Ester (multiple trade names)	21 - 64 Fl. Oz.	Canada thistle, musk thistle, Scotch thistle, field bindweed, leafy spurge, poison hemlock, Russian-olive
Aminopyralid (Milestone)	4 - 7 Fl. Oz.	Sulfur cinquefoil, diffuse knapweed, Russian knapweed, spotted knapweed, St Johnswort, yellow starthistle, Canada thistle, musk thistle, Scotch thistle
Aminocyclopyralid + (Perspective, Streamline)	See specific label	Knapweeds, thistles, perennial pepperweed (tall whitetop), hoary cress (small whitetop), leafy spurge, field bindweed, dyer's woad, Dalmatian toadflax, yellow toadflax
Chlorsulfuron (Telar)	1/3 - 3 Dry Oz.	Perennial pepperweed (tall whitetop), hoary cress (small whitetop), musk thistle, Scotch thistle, houndstongue, black henbane, dyer's woad, poison hemlock
Clopyralid + 2,4-D (Curtail, Commando, others)	See specific label	Diffuse knapweed, Russian knapweed, spotted knapweed, Canada thistle, musk thistle, Scotch thistle, yellow starthistle, Russian-olive
Dicamba (Banvel, Clarity, others)	See specific label	Field bindweed, diffuse knapweed, Russian knapweed, spotted knapweed, leafy spurge, Canada thistle, musk thistle, Scotch thistle, dalmatian toadflax, Russian-olive
Dicamba + 2,4-D (Weedmaster, Veteran 720, Vengeance)	See specific label	Thistle (Canada, musk, Scotch), field bindweed, knapweed (diffuse, Russian, spotted), leafy spurge, dalmatian toadflax, Russian-olive
Floroxypyr (Vista XRT, others)	6 - 17 Fl. Oz.	Excellent for kochia, Russian thistle, hemp dogbane (these are all non-noxious weeds)
Glyphosate (Roundup, Gly-4, Razor, others)	1 - 5%	Bermudagrass, Johnsongrass, Medusahead, Quackgrass
Glyphosate + 2,4-D (Landmaster, others)	27 - 80 Fl. Oz.	Bermudagrass, Johnsongrass, Medusahead, Quackgrass
Imazapic (Plateau, Journey, others)	4 - 10 Fl. Oz.	Leafy spurge (fall), dyer's woad, hoary cress, perennial pepperweed, cheetgrass (non-noxious)
Imazapyr (Arsenal, Habitat, Powerline, Sahara DG)	.75 qt. max	Russian-olive, saltcedar, knapweed (diffuse, Russian, spotted), Purple loosestrife, saltgrass (non-noxious)
Metsulfuron (Escort, MSM 60, others)	.5 - 2 Dry Oz.	Perennial pepperweed (tall whitetop), hoary cress (small whitetop), musk thistle, Scotch thistle, houndstongue, black henbane, dyer's woad, poison hemlock
Picloram (Tordon 22K, Tordon 101, Grazon P+D)	1 - 3 qt.	Thistle (Canada, musk, Scotch), field bindweed, knapweed (diffuse, Russian, spotted), leafy spurge, dalmatian toadflax
Triclopyr (Garlon 3A, Garlon 4 Ultra, Pathfinder II)	See specific label	Cut-stump, frill cut and basal bark treatments for Russian-olive, saltcedar
Recommended Surfactants LI-700, S-90, Syl-Tac, MSO, many others		Surfactants make herbicides perform better acting as a spreader/sticker; helping them to penetrate waxy or hairy leaf surfaces with less runoff.

***The Weed Department suggests the use of a quality non-ionic surfactant with approved herbicides for best results.**

The Uintah County Weed Department assumes no liability for any personal injury, injury to animals, and/or intentional or unintentional plant injury due to the private sale and/or application of any herbicide in this program. The Weed department is not in partnership with any private business. Participants are solely responsible for all purchase decisions and applications of any herbicides purchased. All recommendations are based upon current manufacturers label. Anyone using herbicides should always read and follow the current manufactures product label before use.
